BLOODHOUNDS IN THE RUSSIAN ARMY .-The Russiaus have strong heard their army by the povel addition to each company of a pack of newerful and carefully trained dags. These watchfel soimals are sent out with the senticels on pick t duty, where their sharp cars and still keener scent will prove an impresenable barrier to the lucking spies of the enemy. The dogs used are a species of bloodhound from the Ural Mountains. The dog is selected because of its habitual silete. It grows, but cover parks a matter of the first importance to soldiers near an enemy's comp. The Urat hound is gifted FOR SALE-A FARM, containing ONE with an exceedingly flow sent of small bear FUNDEED AND TRIRTEEN ACRES. with an exceedingly five seent of smell, keen seven miles from Alexandria, on the road to to the localy picket, the dog is said to be cap-cisily confequent in delecting his master. It is curious that, with the example of the King of a TWO STORY DWELLING, nearly new, cars, and is ever alers. Most comforting of all Charles speciels believed as, no one thought b .fore of using these tate I good spimals as senticels. The value of the plan is sel - vident. The Muscovites have gone further, and see it will be for rent for the year 1882. For further training switt hounds, as well as these same particulars inquire of Walter Walton or John Ural degs, to set us dispated buarers, much as the eartier pigeson were employed in 1871. They correlate would be hard messengers to catch, when steading through the woods at night.- Boston Post
